Cleaner/Preservative

As a result of many years of experience and of up-to-date experiments in chemistry and metallurgy, various improvements have been effected both to corrosion resistance in metal components and to performance of the cleaning equipment now offered.

We believe the Webley formula for rust prevention and cleaning to be a significant advance on previous formulae. The cleaning equipment listed below has been produced for us to our specifications.

The M.O. Cleaning Set is available in 12, 16, 20, 28 and .410 bore, and comprises a two-piece rod, wool mop, phosphor bronze brush, loop, a 4 oz. tin of Webley cleaner, a box of flannelette patches and a duster

THE HOUSE OF HARDY

Hardy Countrywear Mitts

These mitts have been specially designed for both shooting and fishing during cold weather. Made from best quality Abyssinian sheepskin, which has been specially selected for this purpose. The skins are treated to increase their water resistance and the extra long cuff ensures that there is no cold gap between mitt and the sleeve of the jacket. There is a velcro adjustable wrist strap and fastening and the mitts are fully lined throughout with a high quality material. Colour: Black. Sizes: 8, 8½, 9, 9½ & 10.
